## Talks/Presentations

2026

45. *Powering Tomorrow with AI-Driven High-Entropy Design*. **Invited talk** for the Symposium on “High-Entropy Ceramics” at the CIMTEC International Conferences on Modern Materials and Technologies 2026; 16<sup>th</sup> International Ceramics Congress, Perugia, Italy (Jun 21, 2026).
44. *Powering Tomorrow with AI-Driven High-Entropy Design*. **Invited talk** for the Session on “Computational Materials” at the GE Vernova's Material Frontier Symposium: Powering the Future, Niskayuna, NY (Jun 03, 2026).
43. *Powering Tomorrow with AI-Driven High-Entropy Design*. **Invited talk** for the Symposium on “Engineering Complexity—High Entropy Ceramics as a Design Platform for Next-Generation Materials” at the MRS 2026 Spring Meeting & Exhibit, Honolulu, HI (May 01, 2026).
42. *The Intersection of Energy, Entropy, and Exploration: Data-Driven Discovery of High-Entropy Materials*. **Invited talk** for the Session on “Data-Driven Thin Film Design: High-Throughput Experimentation, Simulation, and Machine Learning” at the International Conference on Metallurgical Coatings and Thin Films (ICMCTF) 2026, San Diego, CA (Apr 20, 2026).
41. *Powering Tomorrow with AI-Driven High-Entropy Design*. **Invited talk** for the Material Sciences Strategy Offsite for the Johns Hopkins University Applied Physics Laboratory Section R1A, Washington, DC (Mar 26, 2026).
40. *Powering Tomorrow with AI-Driven High-Entropy Design*. **Invited seminar** for the Departmental Seminar Series at the Department of Materials Science and Engineering at the University of Maryland, College Park, MD (Mar 25, 2026).
39. *From Data to Discovery: Active Learning Unlocks Complex Ceramic Design Spaces*. **Invited talk** for the Symposium on “Advances in Ceramic Materials and Processing” at the TMS 2026 Annual Meeting & Exhibition, San Diego, CA (Mar 16, 2026).

2025

38. *From Data to Discovery: Active Learning Unlocks Complex Ceramic Design Spaces*. **Invited talk** for the Mini Symposium on “Computational Thermodynamics: Energy and Energy Landscape” at the 2025 SIAM New York-New Jersey-Pennsylvania Section Conference, University Park, PA (Nov 02, 2025).
37. *AI Materials Discovery for Nuclear Waste and Spent Fuel Immobilization*. **Invited talk** for the 2025 Annual Fission Workshop of the Advanced Research Projects Agency-Energy (ARPA-E), Arlington, VA (Oct 02, 2025).

36. *High-Entropy Alloys and Halides: Expanding the Energy-Materials Space*. **Invited talk** for the Symposium on “Advances in Refractory High Entropy Alloys and Ceramics” at the MS&T25 Technical Meeting and Exhibition, Columbus, OH (Sep 30, 2025).
35. *Accelerating Energy Solutions with High-Entropy Materials: Leveraging Disorder, Computation, and AI*. **Invited talk** for The Advanced Materials Show at MS&T25 Technical Meeting and Exhibition, Columbus, OH (Sep 30, 2025).
34. *High-Entropy Oxides and Halides: Expanding the Energy-Materials Space*. **Invited talk** for the Artificial Intelligence for Materials Science (AIMS) Workshop at the National Institute of Standards and Technology (NIST), Rockville, MD (Jun 10, 2025).
  - *Artificial Intelligence for Materials Science (AIMS) Workshop* recording: <https://www.nist.gov/news-events/events/2025/07/artificial-intelligence-materials-science-aims-workshop>
33. *High-Entropy Halides: Expanding the Energy-Materials Space*. **Invited talk** for the Symposium on “High Entropy and Complex Structure for Electrocatalysis and Other Applications” at the ACS Spring 2025 Meeting & Expo, San Diego, CA (Mar 25, 2025).
32. *High-Entropy Halides: Expanding the Energy-Materials Space*. **Invited talk** for the Symposium on “Advances in Ceramic Materials and Processing” at the TMS 2025 Annual Meeting & Exhibition, Las Vegas, NV (Mar 24, 2025).

## 2024

31. *Metal Iodide Materials for Energy Applications*. **Invited talk** for the Symposium on “Understanding High Entropy Materials Via Data-Science and Computational Approaches” at the MS&T24 Technical Meeting and Exhibition, Pittsburgh, PA (Oct 09, 2024).
30. *Success Stories in Computationally-Driven Materials Discovery*. **Invited seminar** for the Departmental Seminar Series at the Department of Materials Science and Engineering at the University of Connecticut, Storrs, CT (Sep 27, 2024).
29. *Disorder by design: Applications and modeling of high-entropy ceramics*. **Invited talk** for the Symposium on “Advancing Ab-Initio Force Fields with Machine-Learning for Energy Materials” at the International Conference on Computational & Experimental Engineering and Sciences (ICCES 2024), Singapore (Aug 04, 2024).
28. *Success Stories in Computationally-Driven Materials Discovery*. **Invited seminar** for the Departmental Seminar Series at the Department of Chemical and Nano Engineering at the University of California, San Diego, San Diego, CA (May 01, 2024).
27. *Disorder by design: Applications and modeling of high-entropy ceramics*. **Invited seminar** for the Departmental Seminar Series at the University of Michigan, Ann Arbor, MI (Mar 04, 2024).
26. *Bayesian Optimization of the PhD (and beyond)*. **Keynote** for the Fifth Annual Research Summit for the University Center of Exemplary Mentoring at Duke University, Durham, NC (Feb 29, 2024).

## 2023

25. *Success Stories in Computationally-Driven Materials Discovery*. **Invited seminar** for the Materials Science and Engineering Fall Seminar Series at the Rensselaer Polytechnic Institute, Troy, NY (Oct 18, 2023).
24. *Success Stories in Computationally-Driven Materials Discovery*. **Invited seminar** for the Physics Department Colloquium at Georgetown University, Washington, DC (Sep 26, 2023).
23. *Computational Materials Science*. **Invited seminar** for the PARADIM Summer School, Johns Hopkins University (Aug 02, 2023).
22. *Success Stories in Computationally-Driven Materials Discovery*. **Invited seminar** for the OneChemistry Symposium, Johns Hopkins University (Apr 18, 2023).
21. *Disorder by design: Applications and modeling of high-entropy ceramics*. **Invited seminar** for the Johns Hopkins University Applied Physics Laboratory, Baltimore, Maryland (Mar 09, 2023).
20. *Success Stories in Computationally-Driven Materials Discovery*. **Invited seminar** for the Computational Spintronics Group, Trinity College Dublin, Ireland (Feb 17, 2023).
19. *Success Stories in Computationally-Driven Materials Discovery*. **Invited seminar** for the Physics Department Colloquium at Johns Hopkins University, Baltimore, Maryland (Feb 15, 2023).

## 2022

18. *Disorder by design: Applications and modeling of high-entropy ceramics*. **Invited seminar** for the Hopkins Extreme Materials Institute at Johns Hopkins University, Baltimore, Maryland (Nov 01, 2022).
17. *Formation Descriptors for High-Entropy High-Hardness Metal Carbides*. **Invited talk** for the Machine Learning in Ceramics and Glasses Webinar at the Institute of Materials, Minerals and Mining (IOM3), London, UK (Mar 29, 2022).
16. *High-entropy ceramics*. **Invited seminar** for the Department of Materials Science and Engineering at Michigan Technological University, Houghton, Michigan (Mar 17, 2022).
15. *High-entropy ceramics*. **Invited seminar** for the Department of Materials Science and Engineering at the University of California, Irvine, Irvine, CA (Mar 04, 2022).
14. *Disorder by design: Applications and modeling of high-entropy ceramics*. **Invited seminar** for the Department of Materials Science and Engineering at Texas A&M University, College Station, Texas (Feb 10, 2022).
13. *High-entropy ceramics*. **Invited seminar** for the Department of Physics at the University of Alabama at Birmingham, Birmingham, Alabama (Feb 04, 2022).
12. *High-entropy ceramics*. **Invited seminar** for the Department of Mechanical Engineering at Rowan University, Glassboro, NJ (Jan 27, 2022).
11. *High-entropy ceramics*. **Invited seminar** for the Department of Materials Science and Engineering at Johns Hopkins University, Baltimore, MD (Jan 04, 2022).

## 2021

10. *Data for Materials Development Platforms*. **Invited seminar** for the aiM Program Boot Camp and Orientation at Duke University, Durham, North Carolina (Aug 19, 2021).
  - *Data for Materials Development Platforms* recording: <https://youtu.be/wLegemRIMpk>
9. *High-entropy ceramics*. **Invited seminar** for the Department of Mechanical Engineering at Texas A&M University, College Station, Texas (Feb 24, 2021).
8. *High-entropy ceramics*. **Invited seminar** for the Lecture Series in Materials Science & Engineering at the North Carolina State University, Raleigh, North Carolina (Jan 22, 2021).

## 2020

7. *Entropy and ceramics: A valuable partnership*. **Invited seminar** for the Department of Materials and Interfaces at the Weizmann Institute of Science, Rehovot, Israel (Feb 06, 2020).
6. *Entropy and ceramics: A valuable partnership*. **Invited seminar** for the Sackler Center for Computational Molecular and Materials Science at Tel Aviv University, Tel Aviv, Israel (Feb 05, 2020).
5. *Entropy and ceramics: A valuable partnership*. **Invited seminar** for the Department of Materials Engineering at Ben-Gurion University of the Negev, Beer Sheva, Israel (Jan 29, 2020).

## 2019

4. *Going Off-Stoichiometry: Challenging Traditional Materials Discovery*. **Invited seminar** for the Center for Computational Materials Science at the Naval Research Laboratory, Washington, DC (Jan 09, 2019).

## 2018

3. *Advancements in Materials Informatics with AFLOW*. **Invited seminar** for the Theory Department at the Fritz-Haber-Institut der Max-Planck-Gesellschaft, Berlin, Germany (Jan 18, 2018).
2. *Advancements in Materials Informatics with AFLOW*. **Invited seminar** for the Physics Department at the Humboldt University of Berlin, Berlin, Germany (Jan 16, 2018).

## 2016

1. *Materials Cartography: Representing and Mining Materials Space using Structural and Electronic Fingerprints*. **Invited seminar** for the Condensed Matter Physics Seminar Series at Brigham Young University, Provo, Utah (Feb 18, 2016).

## Software and Datasets

*Prior development, Duke University (2014–2022)*

**aflow++** (2014–2022) · Lead developer · C++ framework for autonomous materials design and high-throughput ab initio workflows · with the AFLOW Consortium (S. Curtarolo, PI, Duke University) · DOI: [10.1016/j.commatsci.2022.111889](https://doi.org/10.1016/j.commatsci.2022.111889) · [aflow.org](https://aflow.org) · Also developed the electronic band-gap and Bader charge analysis modules; POCC, CHULL and APL are listed separately below · Continuing development of a Johns Hopkins-specific branch (2022–present).

**AFLOW-POCC** (2014–2022) · Lead developer · partial-occupation and disorder module for modeling off-stoichiometric and high-entropy materials · with the AFLOW Consortium · DOI: [10.1021/acs.chemmater.6b01449](https://doi.org/10.1021/acs.chemmater.6b01449) & [10.1016/j.actamat.2022.118594](https://doi.org/10.1016/j.actamat.2022.118594).

**AFLOW-CHULL** (2014–2022) · Lead developer · cloud-oriented platform for autonomous thermodynamic phase-stability analysis · with the AFLOW Consortium · DOI: [10.1021/acs.jcim.8b00393](https://doi.org/10.1021/acs.jcim.8b00393) · [aflow.org/aflow-chull](https://aflow.org/aflow-chull).

**AFLOW-APL** (2014–2019) · Core developer · automatic phonon library for vibrational and thermal properties · with the AFLOW Consortium · DOI: [10.1038/s41467-021-25979-5](https://doi.org/10.1038/s41467-021-25979-5).

**aflow.org** (2014–2022) · Core developer · web ecosystem of materials databases, software and tools · with the AFLOW Consortium · DOI: [10.1016/j.commatsci.2022.111808](https://doi.org/10.1016/j.commatsci.2022.111808) · [aflow.org](https://aflow.org).

**AFLOW-SYM** (2014–2019) · Contributing developer · complete, automatic and self-consistent symmetry analysis of crystals · with the AFLOW Consortium · DOI: [10.1107/S2053273318003066](https://doi.org/10.1107/S2053273318003066) · [aflow.org/aflow-online](https://aflow.org/aflow-online).

**AFLOW-CCE** (2021) · Contributing developer · automated coordination-corrected formation enthalpies · with the AFLOW Consortium · DOI: [10.1103/PhysRevMaterials.5.043803](https://doi.org/10.1103/PhysRevMaterials.5.043803) · [aflow.org/aflow-online](https://aflow.org/aflow-online).

**AFLOW-ML** (2018) · Contributing developer · RESTful API for machine-learning prediction of materials properties · with the AFLOW Consortium · DOI: [10.1016/j.commatsci.2018.03.075](https://doi.org/10.1016/j.commatsci.2018.03.075) · [aflow.org/aflow-ml](https://aflow.org/aflow-ml).

**AFLUX** (2017) · Contributing developer · search API for the AFLOW data repositories · with the AFLOW Consortium · DOI: [10.1016/j.commatsci.2017.04.036](https://doi.org/10.1016/j.commatsci.2017.04.036) · [aflow.org/API/aflux](https://aflow.org/API/aflux).

**OPTIMADE** (2021–2024) · Contributor · community API standard for exchanging materials data across databases · with the OPTIMADE Consortium · DOI: [10.1038/s41597-021-00974-z](https://doi.org/10.1038/s41597-021-00974-z) & [10.1039/D4DD00039K](https://doi.org/10.1039/D4DD00039K) · [optimade.org](https://optimade.org).

## Teaching Experience

|                    |                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|--------------------|-----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Instructor         | Spring 2023–present   | EN.500.113: <i>Gateway Computing: Python</i> , Johns Hopkins University <ul style="list-style-type: none"> <li>Required first-year coding course for all Whiting School undergraduates; one section in Spring 2023 and two sections every spring since, 20 to 32 students per year</li> <li>Project-based flipped classroom with in-class team problems solved at the whiteboard; authored one of the class-wide projects (string manipulation applied to order and disorder in materials)</li> <li>Course evaluations (seven sections, 91 respondents, response rates 86 to 100%): teaching effectiveness 4.25, intellectual challenge 4.34 of 5 (school means 4.27 and 4.28); Spring 2023 section 4.69 for teaching effectiveness</li> </ul> |
| Instructor         | Fall 2023–present     | EN.510.466 / EN.510.666: <i>Materials Modeling (formerly Introduction to Computational Materials Modeling)</i> , Johns Hopkins University <ul style="list-style-type: none"> <li>Cross-listed undergraduate and graduate course; enrollment 15 to 17 per year, mostly graduate students, with a waiting list in 2026</li> <li>Seven programming assignments with LaTeX reports in GitHub, no written examinations, final group project; closes with autonomous experimentation on the LEGOLAS kit</li> <li>Course evaluations (three years, 44 respondents, response rates 80 to 94%): quality 4.30, teaching effectiveness 4.30, intellectual challenge 4.62 of 5 (school mean for challenge about 4.26)</li> </ul>                           |
| Research Advisor   | Spring 2023–present   | EN.510.501 / EN.510.502 / EN.510.809: <i>Undergraduate Research, Research in Materials Science, and Graduate Summer Research</i> , Johns Hopkins University                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Guest Lecturer     | Feb 05, 2026          | EN.510.603: <i>Phase Transformations (T. Curk)</i> , Johns Hopkins University                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Guest Lecturer     | Mar 28, 2023          | EN.510.422 / EN.510.622: <i>Micro and Nano Structured Materials and Devices (A. S. Hall)</i> , Johns Hopkins University                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Co-Instructor      | Spring 2021           | ME 555: <i>Applications of Artificial Intelligence in Materials</i> , Duke University Department of Mechanical Engineering and Materials Science                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Teaching Assistant | Spring 2020           | ME 555: <i>Computational Materials Science by Examples and Applications</i> , Duke University Department of Mechanical Engineering and Materials Science                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Teaching Assistant | Fall 2014–Spring 2015 | ME 221: <i>Structure and Properties of Solids</i> , Duke University Department of Mechanical Engineering and Materials Science <ul style="list-style-type: none"> <li><b>Best Teaching Assistant Award</b>, Aug 14, 2015</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

Conference and Workshop Organization <sup>†</sup> contributed equally

2026

30. *Laboratory to Launchpad: Bringing Your Energy IP to Life*. **Organizer** at Hopkins Bloomberg Center, Washington, DC (Jun 11, 2026). **Co-Organizers**: A. G. Bregman<sup>†</sup>, S. D. Cohen & J. Erlebacher.
  - website: <https://engineering.jhu.edu/materials/laboratory-to-launchpad/>
29. *Navigating Early Careers in Academia*. **Panelist** for the Materials Graduate Society at Johns Hopkins University, Baltimore, Maryland (Apr 15, 2026).
28. *Quantum Computing in Practice: Hands On with Quantinuum*. **Organizer** at Johns Hopkins University, Baltimore, Maryland (Feb 25–26, 2026). **Co-Organizer**: G. D. Quiroz.
  - website: <https://entropy4energy.ai/workshops>

2025

27. *Mini Symposium on “Computational Thermodynamics: Energy and Energy Landscape”*. **Co-Organizer and Presenter** at the 2025 SIAM New York-New Jersey-Pennsylvania Section Conference, University Park, PA (Oct 31–Nov 2, 2025). **Co-Organizers**: Z.-K. Liu, J. Deng, T. R. Sinno & R. Wentzcovitch.
  - website: <https://siamnnp2025.sciencesconf.org/>

26. *Hopkins Engineering Sampler Seminar (HESS)*. **Panelist** for the Life Design – First Year Experience (Whiting School of Engineering) at Johns Hopkins University, Baltimore, Maryland (Sep 22, 2025).
25. *Johns Hopkins Data Science and AI Institute Fall 2025 Symposium: AI in Daily Life*. **Organizer** for the Fall 2025 Symposium at the Johns Hopkins Data Science and AI Institute, Baltimore, MD (Sep 16, 2025). **Co-Organizers**: D. J. H. Mathews<sup>†</sup>, S. Vedula<sup>†</sup>, C. Douville<sup>†</sup>, T. Shu<sup>†</sup>, K. Vaught<sup>†</sup>, B. Ranno, S. Pagano & S. McGhee.
  - website: <https://ai.jhu.edu/event/fall-2025-symposium/>

## 2024

24. *Data-Driven Materials Modeling Workshop*. **Organizer and Presenter** at Johns Hopkins University, Baltimore, Maryland (May 29–31, 2024). **Co-Organizers**: B. Bukowski & T. Curk.
  - *Data-Driven Thermodynamic Modeling for Materials Discovery* recording: <https://youtu.be/kZj3zQkBAKg>
  - website: <https://entropy4energy.ai/workshops>
23. *Faculty Panel*. **Panelist** for the Engineering Admitted Student Visit Day at Johns Hopkins University, Baltimore, Maryland (Mar 26, 2024).
22. *Focus Session: Computational Design, Understanding and Discovery of Novel Materials*. **Session Chair** for the March Meeting of the American Physical Society, Minneapolis, Minnesota (Mar 3–8, 2024). **Co-Chairs**: E. Jankowski, R. Sundararaman & D. Usanmaz.
  - website: <https://meetings-archive.aps.org/mar/2024/g60/>
21. *Foundations to Futures: Materials Data and AI*. **Conference Co-Chair** at the Materials Research Data Alliance (MaRDA) 2024 Annual Meeting, Baltimore, Maryland (Feb 20–22, 2024). **Co-Chairs**: D. Audus & F. Sen.
  - website: <https://www.marda-alliance.org/2024-annual-meeting/>
20. *AI, Data Science — Developing the Role for Sustainable Energy in Hopkins' Expansion and Vision*. **Session Co-Chair** at the ROSEI 2024 Summit, Baltimore, Maryland (Jan 17, 2024). **Co-Chair**: P. Clancy.
  - website: <https://energyinstitute.jhu.edu/pec-events/rosei-summit-2024/>

## 2023

19. *Hopkins Engineering Sampler Seminar (HESS)*. **Panelist** for the Life Design – First Year Experience (Whiting School of Engineering) at Johns Hopkins University, Baltimore, Maryland (Sep 19, 2023).
18. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Presenter** for the Machine Learning for Materials Research Bootcamp of the University of Maryland/NIST/MRS, College Park, Maryland (Aug 10, 2023). **Co-Presenter**: C. Toher.
  - website: <https://umd-mse.catalog.instructure.com/courses/mlmr-2023>
17. *Roundtable Discussion on Gateway Science/Computing Courses*. **Panelist** for the Provost's DELTA Teaching Forum at Johns Hopkins University, Baltimore, Maryland (May 01, 2023).

## 2022

16. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Organizer and Presenter** at Johns Hopkins University, Baltimore, Maryland (Sep 21, 2022). **Co-Organizers**: D. Hicks, H. Eckert & S. Divilov.
  - *Introduction and AFLOW-ML: Machine Learning* recording: <https://youtu.be/Xj5BGuFC9ew>
  - website: <https://aflow.org/aflow-school/#20220921>
15. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Presenter** for the Machine Learning for Materials Research Bootcamp of the University of Maryland/NIST/MRS, College Park, Maryland (Aug 11, 2022). **Co-Presenters**: C. Toher & D. Hicks.
  - website: <https://aflow.org/aflow-school/#20220811>
14. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Co-Organizer and Presenter** at the East African Institute for Fundamental Research, University of Rwanda, Kigali, Rwanda (Feb 21–24, 2022). **Co-Organizers**: C. Toher, M. Esters & F. Rose.
  - website: <https://aflow.org/aflow-school/#20220221>

## 2021

13. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Co-Organizer and Presenter** at the Technische Universität (TU) Dresden and Helmholtz-Zentrum Dresden-Rossendorf (Sep 6–10, 2021). **Co-Organizers**: C. Toher, D. Hicks, M. Esters, A. Smolyanyuk & R. Friedrich.
  - *Introduction to Density Functional Theory and VASP* recording: [https://youtu.be/\\_RsQH3TY7kI](https://youtu.be/_RsQH3TY7kI)
  - *AFLOW-CHULL: Thermodynamics* recording: <https://youtu.be/zcY7gTZIB-Y>
  - *AFLOW-POCC: Disorder* recording: <https://youtu.be/lcDSYiF4AS4>
  - website: <https://aflow.org/aflow-school/#20210906>

12. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Co-Organizer and Presenter** at the University of Virginia, Charlottesville, Virginia (Aug 17, 2021). **Co-Organizers:** C. Toher, D. Hicks & M. Esters.
  - *AFLOW-CHULL and AFLOW-CCE: Thermodynamics* recording: <https://youtu.be/cLhOcN1sQ7M>
  - website: <https://aflow.org/aflow-school/#20210817>
11. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Presenter** for the Machine Learning for Materials Research Bootcamp of the University of Maryland/NIST, College Park, Maryland (Jul 29, 2021). **Co-Presenters:** C. Toher, D. Hicks & M. Esters.
  - *AFLOW-ML: Machine Learning* recording: <https://youtu.be/uFQ-lyTaxCc>
  - website: <https://aflow.org/aflow-school/#20210729>
10. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Co-Organizer and Presenter** at Texas A&M University, College Station, Texas (Jul 12–15, 2021). **Co-Organizers:** C. Toher, D. Hicks, M. Esters & A. Smolyanyuk.
  - *Introduction to Density Functional Theory and VASP* recording: <https://youtu.be/KXnJGdVgosA>
  - *AFLOW-CHULL and AFLOW-CCE: Thermodynamics* recording: <https://youtu.be/ElaniAcrbHU>
  - *AFLOW-POCC: Disorder* recording: [https://youtu.be/D\\_cfHllpBiA](https://youtu.be/D_cfHllpBiA)
  - website: <https://aflow.org/aflow-school/#20210712>
9. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Session Chair** for the Virtual Spring Meeting of the Materials Research Society (Apr 17, 2021). **Co-Chairs:** C. Toher, D. Hicks & M. Esters.
  - website: <https://mrs2021.cd.pathable.com/meetings/virtual/ZwzoadbK59GonYZuw>

## 2020

8. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Presenter** for the Materials 4.0 Summer School 2020 at the Dresden Center for Computational Materials Science (DCMS), Technische Universität (TU) Dresden (Aug 18, 2020). **Co-Presenters:** C. Toher, D. Hicks, M. Esters & R. Friedrich.
  - *AFLOW-CHULL: Thermodynamics* recording: <https://youtu.be/ncm356YNBVc>
  - website: <https://aflow.org/aflow-school/#20200818>
7. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Presenter** for the Machine Learning for Materials Research Bootcamp & Workshop on Machine Learning Microscopy Data of the University of Maryland/NIST, College Park, Maryland (Jul 23, 2020). **Co-Presenters:** C. Toher, D. Hicks & M. Esters.
  - *AFLOW-ML: Machine Learning* recording: <https://youtu.be/x2qeBtOXues>
  - website: <https://www.nanocenter.umd.edu/events/mlmr-2020/>
6. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Co-Organizer and Presenter** at Texas A&M University, College Station, Texas (Jun 16–18, 2020). **Co-Organizers:** C. Toher, D. Hicks, M. Esters & R. Friedrich.
  - *Introduction to Density Functional Theory and VASP* recording: <https://youtu.be/ChySAfo2w7g>
  - *AFLOW-CHULL: Thermodynamics* recording: <https://youtu.be/9Sa8D4inJ5w>
  - *AFLOW-POCC: Disorder* recording: <https://youtu.be/xr-mU-1ShQQ>
  - website: <https://aflow.org/aflow-school/#20200616>

## 2019

5. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Presenter** for the Machine Learning for Materials Research Bootcamp & Workshop on Autonomous Materials Research of the University of Maryland/NIST, College Park, Maryland (Aug 05, 2019). **Co-Presenters:** C. Toher, D. Hicks & M. Esters.
  - website: <https://www.nanocenter.umd.edu/events/mlmr/program/>
4. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Co-Organizer and Presenter** at the University of Pennsylvania, Philadelphia, Pennsylvania (May 03, 2019). **Co-Organizers:** C. Toher, D. Hicks, E. Gossett, M. Esters & S. Curtarolo.
3. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Co-Organizer and Presenter** at the North Carolina State University, Raleigh, North Carolina (Mar 12, 2019). **Co-Organizers:** C. Toher, D. Hicks, E. Gossett & M. J. Brenner.
2. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Co-Organizer and Presenter** at Carnegie Mellon University, Pittsburgh, Pennsylvania (Jan 21, 2019). **Co-Organizers:** D. Hicks & E. Gossett.

## 2018

1. *AFLOW School: Integrated infrastructure for computational materials discovery*. **Presenter** for the Machine Learning for Materials Research Bootcamp & Workshop on Machine Learning Quantum Materials of the University of Maryland/NIST/Moore Foundation, Institute for Bioscience & Biotechnology Research in Gaithersburg, Maryland (Aug 02, 2018). **Co-Presenters:** C. Toher & D. Hicks.
  - website: <https://www.nanocenter.umd.edu/events/mlmr/program/>
